## What we do...

*Kirksey & Associates solves your problem by....*

First, we buy you time with the IRS & State, and help you develop a strategy and plan to fit your circumstances. Tax resolution is not a one-size fits all. We review your financial situation, identify the problem areas and recommend solutions. We work to halt IRS collection activities such as liens, levies, wage garnishments and/or seizure of property.

Second, we implement the plans and solve your tax and related financial problems. Because tax problems are symptoms of larger financial issues we try to go beyond the immediate tax crisis. We negotiate with the IRS and State to provide you the resolution of your tax and financial related problems

Third, we deal with the IRS & State--so you don't have to! We handle the paperwork; we take and make the phone calls and the IRS calls us, not you! This allows you to focus on other important matters in your life.

Fourth, we give you our personal attention. Your phone calls are returned promptly and your questions are answered. Remember, our reputation is on the line and our primary objective is for you to have your tax problems resolved.

## Tax Resolution Services

Your IRS problems will not just go away by themselves; they just keep getting worse with penalties and interest being added each day. If you owe the IRS, you have a very serious problem. It may take the IRS several years to catch up to you, but they are relentless and have no mercy in collecting all the money that is owed. When the collection process starts, they'll make your life miserable and can literally ruin all aspects of your life.

### Audit & Representation

Rarely do our clients have to talk with the IRS. We handle it all for you so that you need not take time off of your job to handle the bureaucracy and paperwork of the IRS.

### IRS Levies

We are often able to get levies released and help you get out of a terrible situation. Our goal is to get you even with the IRS and let you start life anew.
